## What is Pocket Transport?

Pocket Transport is a revolutionary new mode of urban transportation that is coming to Lyon in 2024. It is a small, electric, autonomous vehicle that can carry up to four people.

Pocket Transport is designed to be a convenient, affordable, and sustainable way to get around the city. It is zero-emission, so it doesn't pollute the air. It is also very efficient, so it can help to reduce traffic congestion.

## How does Pocket Transport work?

Pocket Transport uses a combination of sensors, cameras, and artificial intelligence to navigate the city streets. It can travel at speeds of up to 25 mph and has a range of up to 60 miles on a single charge.

To use Pocket Transport, you simply need to download the app and create an account. Once you have created an account, you can use the app to book a ride. The app will then track your location and send a Pocket Transport vehicle to your location.

## What are the benefits of Pocket Transport?

There are many benefits to using Pocket Transport, including:

- **Convenience:** Pocket Transport is a very convenient way to get around the city. You can book a ride with just a few taps on your phone, and the vehicle will come to your location.
- **Affordability:** Pocket Transport is very affordable, especially compared to other modes of transportation such as taxis or ride-

sharing services.

- **Sustainability:** Pocket Transport is a zero-emission vehicle, so it doesn't pollute the air. It is also very efficient, so it can help to reduce traffic congestion.
- **Accessibility:** Pocket Transport is accessible to everyone, regardless of age or ability. The vehicles are designed to be wheelchair-accessible, and they can accommodate up to four people.

## **What is the impact of Pocket Transport on Lyon?**

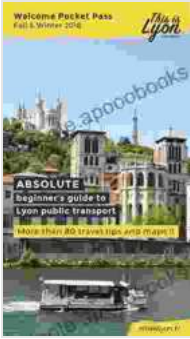

Pocket Transport is expected to have a significant impact on Lyon. It will make it easier and more affordable for people to get around the city, and it will help to reduce traffic congestion and pollution.

Pocket Transport is also expected to create new jobs and boost the local economy. The company that operates Pocket Transport plans to invest millions of dollars in Lyon, and it will create hundreds of new jobs.

## **How can I learn more about Pocket Transport?**

To learn more about Pocket Transport, you can visit the company's website or download the app. You can also follow Pocket Transport on social media for the latest news and updates.

Pocket Transport is a revolutionary new mode of urban transportation that is coming to Lyon in 2024. It is a convenient, affordable, sustainable, and accessible way to get around the city. Pocket Transport is expected to have a significant impact on Lyon, making it easier and more affordable for people to get around, reducing traffic congestion and pollution, and creating new jobs and boosting the local economy.
